#### Product Features

**Innovative Solder Paste Handling:** Operates at a 45-degree angle to prevent paste adhesion to can lids, ensuring optimal material utilization.

**Double Safety Mechanism:** Dual safety features protect operators during use, minimizing handling risks.

**Effective Bubble Removal:** Thorough mixing process eliminates air bubbles, enhancing solder paste quality.

**Specialized Control Circuitry:** Dedicated control circuit enables precise adjustments for consistent results throughout the mixing process.

**Optimized Speed Ratio:** Tested speed ratio prevents excessive impact on solder powder and temperature fluctuations, preserving paste quality.
