

Matt PET SMT Consumables SMT Dispensing Paper

Our Product Introduction

for more products please visit us on smtmachine-spareparts.com

Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: GSG-008
- Minimum Order Quantity: 1/box
- Price: USD+negotiable+box
- Packaging Details: 20*50*10mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+box+per days

Product Specification

- Brand Name: GS
- Material: PET
- Color: White
- Model Number: GSG008
- Thickness: 0.05mm
- Dimensions (pc): 12/16/24/mm X 50m
- Weight: Around 0.4kg/10 Rolls
- Product Name: White Opaque Paper
- Application: SMT Process
- Customization: Support
- Highlight: pet smt consumables, matt smt scissor, matt smt consumables

Product Description

GSG-008 Matt PET SMT Consumables SMT Dispensing Paper

一、Product Description

Composition and Design: It is a white opaque paper with a specific arrangement and marking lines, which can help operators determine the dispensing position and amount, and check for any issues such as dispensing deviation or flow rate. Dimension of paper and core can be customized as per customer requirements

二、Advantages

2.1 Good Quality

The quality of our white opaque paper is second to none. It is designed to withstand the rigors of industrial use, providing a durable and reliable tool for testing and calibrating SMT glue dispensers. The paper's opacity and specific marking lines remain clear and legible even after multiple uses, ensuring consistent performance over time.

2.2 Easy to Operate

One of the standout features of this paper is its ease of operation. The clear marking lines and intuitive design make it simple for operators to use, regardless of their experience level.

2.3 Multiple Specifications Available

To cater to the diverse needs of our customers, we offer the paper in multiple specifications. Whether you need a specific size, thickness, or core dimension, we can provide a product that meets your exact requirements.

Conclusion: our white opaque paper with specific arrangement and marking lines is not just a tool, but a comprehensive solution that addresses several critical aspects of the SMT dispensing process. It ensures accuracy, reduces waste, enhances quality, and ultimately contributes to the smooth and efficient operation of manufacturing lines.
