

# 8mm Black ESD SMT Splice Tape for High Efficiency SMT Process with 1-7 Days Lead Time

## **Basic Information**

Place of Origin: ChinaBrand Name: GSModel Number: GSM3308

Minimum Order Quantity: 1 rollPrice: USD+negotiable+roll

Packaging Details: 16\*36\*10mm
Delivery Time: 1-7 days
Payment Terms: T/T

Supply Ability: 1+roll+per days

## **Product Specification**

• Brand Name: GS • Material: PET GSM3308 Model Number: 12.5mm X 32mm • Dimensions (pc): Product Name: Black Splice Tape Application: SMT Process Customization: Support Lead Time: 1-7 Days

• Highlight: Black SMT Splice Tape, SMT Splice Tape GSM3308

## **Product Description**

#### 8mm Black ESD SMT Splicing Tape GSM3308 12.5mm x 32mm Dimensions

#### **Product Description**

GSM3308 8mm Black ESD SMT Splicing Tape

#### Instructions for Use

Cutting the Carrier Tapes: Use a precise cutting tool to accurately cut the carrier tapes. Ensuring a clean and straight edge is crucial

Removing the Release Liner: Carefully remove the release liner of the splice tape to expose the adhesive side. Avoid touching the adhesive to maintain its effectiveness.

Joining Carrier Tapes: Align and place both ends of the carrier tapes onto the first strip of the splice tape. Proper alignment is essential for ensuring a secure splice.

Pressing the Tape: After sticking the splice tape onto the carrier tapes, press it tightly at different locations along the tapes. This ensures a strong bond that can withstand the demands of the SMT process.

#### **Enhancing Efficiency in SMT Processes**

The GSM3308 splice tape significantly enhances SMT process efficiency by increasing Pick and Place machine output by 5%-30%. This improvement is particularly valuable in high-volume manufacturing environments where productivity is critical.

The tape reduces reel change downtime for continuous operation and decreases machine abrasion, extending equipment lifespan while reducing maintenance costs.

SMT single splice tape, SMT splice tape for pick-and-place machines, High-quality SMT splicing tape, ESD-safe SMT tape, Compatible with Panasonic/Fuji machines, Durable SMT splicing solution, SMT tape for high-speed machines, SMT process efficiency tape
