

PET Double SMT Splice Tape GSM01 Series with 10 Embossed Dots for SMT Process

Our Product Introduction

for more products please visit us on smtmachine-spareparts.com

Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: GSM0108/GSM0112/GSM0116/GSM0124
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 20*45*10mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

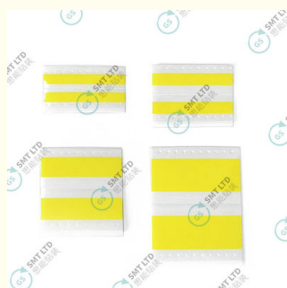

Product Specification

- Brand Name: GS
- Material: PET
- Model Number: GSM0108/GSM0112/GSM0116/GSM0124
- Product Name: Double Splice Tapes
- Application: SMT Process
- Customization: Support
- Highlight: **Double SMT Splice Tape, SMT Splice Tape 16mm**

Product Description

PET Double SMT Splice Tape 8mm 12mm 16mm 24mm 32mm GSM01 Series

GSM01 Series SMT PET Double Splice Tape 8mm-32mm

GSM01 series Double Splice Tapes are designed for joining SMT component carrier tapes. Supplied in pre-cut strips of PET tape, these tapes can be used without requiring a splice tool and clip. Each piece features 10 embossed dots on either side to facilitate precise alignment with the carrier tape. Available in three variants: anti-static, half anti-static, and non anti-static.

Detailed Instructions for Use

Cutting the Carrier Tapes: Use the designated cutting tool (GSMTL20/GSMTL30/GSMTL40) to accurately cut the carrier tapes. Precision cutting ensures perfect fit and alignment.

Preparing the Splice Tape: Remove the release liner to expose the adhesive side, ensuring a secure bond between tapes.

Aligning the Carrier Tapes: Align the cut carrier tapes (cover tape down) with the placement guide provided.

Joining the Carrier Tapes: Place both ends of the joining carrier tapes onto the first strip of splice tape, ensuring correct alignment to prevent misfeeds.

Securing the Splice: Fold over the second strip of splice tape to the underside of the carrier tape and press firmly for a stable splice.

Finalizing the Splice: Remove and discard the clear plastic cover and guide to complete the splice, readying the tapes for assembly.

Enhancing Manufacturing Efficiency

The GSM01 series Double Splice Tapes significantly improve manufacturing efficiency and productivity by reducing downtime, minimizing machine abrasion, and ensuring continuous operation.

| Part (reel) | Dimensions (pc) | Package(box) | |
|----------------|-----------------|--------------|--|
| GSM0108 (8mm) | 4.8mm x 40mm | 500pcs |  |
| GSM0112 (12mm) | 6mm x 40mm | 500pcs | |
| GSM0116 (16mm) | 9.5mm x 40mm | 500pcs | |
| GSM0124 (24mm) | 16mm x 40mm | 250pcs | |
