

## GSM11 Series SMT Splice Cover Tape Extender with Multiple Size Options Non-Skid Leader Tape and Strong Adhesive Bond

Our Product Introduction

for more products please visit us on [smtmachine-spareparts.com](http://smtmachine-spareparts.com)

### Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: GSM1108/GSM1112/GSM1116/GSM1124
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 400\*20\*10mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

### Product Specification

- Brand Name: GS
- Material: PET
- Model Number: GSM1108/GSM1112/GSM1116/GSM1124
- Product Name: SMT Cover Tape Extenders
- Application: SMT Process
- Customization: Support
- Highlight: pet smt splice tape, pet smt double splice tape

## Product Description

### SMT Splice Cover Tape Extender GSM11 Series

#### GSM11 Series SMT Cover Tape Extenders

GSM11 Series SMT Cover Tape Extenders are designed to extend cover tape when little or no leader is available. This avoids wasted components and reduces the feeder load time. Quickly adhere the pre-cut strips and elongate reels of all sizes. Ideal for partially cut reels.

#### Applications and Benefits

**Leader Tape Extension to Avoid Component Waste:** The primary application of the GSM11 Series is to serve as a leader tape for partially used reels. When the original leader tape is cut short or missing, the extender can be quickly applied to extend the cover tape, preventing component waste.

**Perfect for Partially Cut Reels:** GSM11 extenders are specifically designed to address operational inefficiencies with partially cut reels, making them an essential tool for any SMT assembly line.

**Versatile Size Options:** Available in multiple sizes, making them suitable for a wide range of reel dimensions.

**Non-Skid Leader Tape Material:** Made from non-skid PET material, providing stable and reliable feeding without slippage.

**Strong Adhesive Bond:** Features a robust adhesive that forms a strong bond with existing cover tape, crucial for high-speed assembly operations.

**Reduction of Lost Components:** Helps reduce material costs by minimizing component loss during assembly.

**Reduction in Feeder Load Time:** Enables quick loading of reels into feeders without additional preparation, improving overall productivity.

Part (reel)	Dimensions (pc)	Package(box)
GSM1108 (8mm)	396mm X 5mm	500pcs
GSM1112 (12mm)	396mm X 6mm	500pcs
GSM1116 (16mm)	396mm X 9mm	500pcs
GSM1124 (24mm)	396mm X 16mm	250pcs
