

GS SMT Yellow Splice Cutter Tool GSMTL60 for 8mm Tape

Our Product Introduction

for more products please visit us on smtmachine-spareparts.com

Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: GSMTL30
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 330*80*40mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

Product Specification

- Brand Name: GS
- Model Number: GSMTL60
- Product Name: SMT Yellow Splice Cutter Tool
- Material: Steel+Plastic
- Application: SMT Process
- Customization: Support
- Highlight: **Yellow Splice Cutter Tool, SMT Splice Cutter Tool**

Product Description

SMT Yellow Splice Cutter Tool With Positioning Function GSMTL30

Product Specifications

Brand Name	GS
Model Number	GSMTL60
Product Name	SMT Yellow Splice Cutter Tool
Material	Steel + Plastic
Application	SMT process
Customization	Supported

Product Description

The GSMTL30 is a precision cutting tool designed for 8mm carrier tapes in SMT applications. Its innovative design features dual placement pins for handling both 2mm and 4mm pitch tapes with exceptional accuracy.

Key Features

- Precision cutting for 8mm component reels with perfectly straight cuts
- Dual-row placement pin system for 2mm and 4mm pitch alignment
- Lightweight construction with ergonomic grip for comfortable operation
- Integrated safety clamp prevents accidental injuries when not in use
- Durable steel and plastic construction for long service life

Applications

- Accurate cutting of 8mm component reels in SMT production lines
- Precision alignment and splicing of 2mm and 4mm pitch carrier tapes

Product Advantages

- Enhanced Alignment:** Dual placement pins ensure precise tape positioning
- Safety Design:** Protective clamp secures tool when not in use
- Ergonomic Operation:** Comfortable grip reduces fatigue during extended use

Usage Instructions

- Release the safety clamp to open the cutting tool
- Position the carrier tape on the appropriate pitch placement pins (2mm or 4mm)
- Apply firm pressure to the handles to make a clean, accurate cut
