

## Steel Tool Body SMT Splice Plier Tool with Plastic Handle Compatible with GSM0600 for Quick Splicing

Our Product Introduction

for more products please visit us on [smtmachine-spareparts.com](http://smtmachine-spareparts.com)

### Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: GSMTL10
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 25cm x 8cm x 10cm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

### Product Specification

- Brand Name: GS
- Model Number: GSMTL10
- Product Name: 20cm X 5cm X 6.5cm
- Material: Steel Tool Body+Plastic Handle
- Application: SMT Process
- Customization: Support
- Weight: 0.5kg
- Lead Time: 1-7 Days
- Highlight: **smt splice plier tool , smt splice scissor tool**

## Product Description

### SMT Splice Plier Tool for Panasonic GSMTL10

#### Product Description

**GSMTL10 Handle SMT splice plier** used with GSM0600 splice clips for Panasonic. This safety-designed tool prevents hand injuries while ensuring secure and quick joining of SMD component tapes.

#### Key Features

- Specifically designed for precise alignment and secure joining of SMT carrier tapes
- Compatible with GSM0600 splice clips and all sizes of SMT carrier tapes
- Ergonomic design minimizes risk of hand injury during operation

#### Advantages

- **Precision Alignment:** 5mm placement pin guides ensure accurate tape alignment
- **Secure Clamping:** Holds carrier tapes firmly for precise splicing
- **High Capacity:** Accommodates up to 20 clips per frame before reloading
- **Reliable Performance:** Guarantees consistent splicing results
- **Upgrade Option:** Compatible with optional GSK600 splice cart attachment

#### Application

Ideal for quick and secure splicing of SMT carrier tapes. Compatible with GSM0600 splice clips and various splice tape sizes for versatile applications.

#### Instructions for Use

- Crimp tool handle to open front panel jaws
- Position splice clip (teeth up) on placement pins
- Center carrier tapes (cover tape up) on pins and secure with clamps
- Crimp handle to connect tapes securely
- Add splice tape strip to cover tape and press firmly to complete
