

## Single Operate SMT Splice Cart with Rotatable Wheels and Adjustable Height for SMT Production Lines

Our Product Introduction

for more products please visit us on [smtmachine-spareparts.com](http://smtmachine-spareparts.com)

### Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: GSK800
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 120cm x 47cm x 47cm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

### Product Specification

- Brand Name: GS
- Model Number: GSK800
- Product Name: SMT Splice Cart
- Dimensions (pc): 100~110cm X 42cm X 42cm
- Material: Steel Tool Body+Plastic Handle
- Application: SMT Process
- Customization: Support
- Packing: 1Pcs Per Box
- Highlight: Single Operate SMT Splice Tools, SMT Splice Tools GSK800, ESD SMT Splicing Cart

## Product Description

### GSK800 Single Operate SMT Splice Tools Splicing Cart

The GSK800 SMT Splicing Tool ESD SMT Splice Cart is a specialized trolley designed for placement of splicing tools, clips, and tapes. Equipped with rotatable wheels, it provides mobility across different SMT production lines.

### Key Applications

1. Specifically designed for SMT carrier tapes, ensuring precise and reliable splicing
2. Mobile design allows effortless movement across different SMT production lines
3. Must be used with splicing tool GSMTL60 for compatibility and optimal performance
4. Enhances production efficiency through easy operation and robust reliability

### Product Advantages

1. Electrostatic Discharge (ESD) protection prevents static damage in production environments
2. Rotatable wheels enable omnidirectional movement around the production floor
3. Adjustable height settings from 900mm to 1030mm accommodate ergonomic preferences
4. Includes specially designed tool base and copper scrap collection box
5. Lightweight, anti-static junk box facilitates seamless operation

### Operation Instructions

1. Adjust cart height for optimal user comfort
2. Position component carrier tape using 2mm or 4mm pitch placement pin guides
3. Install GSM0700 clips onto GSMTL60 tool for secure tape alignment
4. Center carrier tapes with cover tape facing up and secure with clamps
5. Crimp and connect carrier tapes, then apply splice tape strip to complete the splice

The GSK800 SMT Splicing Cart combines advanced design with user-friendly functionality, making it an essential tool for enhancing efficiency in SMT production environments. Ideal for electronics manufacturing facilities, it ensures consistent performance and operational convenience.

Single Operate SMT Splice Tools Splicing Cart GSK800 | GSSMT, SMT splice tape, SMT splicing machine, SMT splice connectors, SMT splicing equipment, SMT tape splicing tools, SMT splice tool kit, SMT splicing process, SMT splice tool manufacturers, SMT tape splicing technique, SMT splice repair tools, SMT splicing solutions, Automatic SMT splice tools, Manual SMT splice tools, SMT splice tool application, SMT splice tape application, SMT tape jointing tools, High-speed SMT splicing tools, SMT splice tool comparison, SMT splice tape handling, Best SMT splice tools
