

GSMTL120 Multi SMT Splice Tape 8mm 12mm 16mm 24mm 32mm 44mm SMT Cutting Tool

Our Product Introduction

for more products please visit us on smtmachine-spareparts.com

Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: GSMTL120
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 20cmx 6cm x 5cm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

Product Specification

- Brand Name: GS
- Model Number: GSMTL120
- Product Name: SMT Cutting Tool
- Dimensions (pc): 17cmx 4.5cm X 1cm
- Material: Steel Tool Body+Plastic Handle
- Application: SMT Process
- Customization: Support
- Lead Time: 1-7 Days
- Highlight: SMT Splice Tape 8mm, SMT Splice Tape 12mm, 44mm SMT Cutting Tool

Product Description

GSMTL120 Multi SMT Splicing Cutting Tools 8/12/16/24/32/44mm

DESCRIPTION

GSMTL120 splice scissors, is a good and convenient splice scissor with sawtooth. It's suitable for all size carrier tape and splice to be combined perfectly by it's sawtooth clip.

Advantages

1. Sharp Scissors for Smooth Cutting

The GSMTL120 Splice Scissors feature exceptionally sharp blades, allowing for smooth and effortless cutting of carrier tapes. The sharpness of the blades ensures that the tape is cut cleanly, preventing frayed edges and ensuring a professional finish. This level of precision is crucial for maintaining the integrity of the electronic components and ensuring reliable performance.

Safety Buckle Design

Safety is a top priority when it comes to using cutting tools, and the GSMTL120 Splice Scissors excel in this regard. The safety buckle design allows the scissors to be locked in the closed position when not in use, preventing accidental cuts and ensuring safe storage.

Cutting with Position Hole

One of the key advantages of the GSMTL120 Splice Scissors is the cutting position hole, which allows for accurate and easy splicing. The position hole holds the carrier tape securely in place during cutting, ensuring that each cut is made at the correct position. This feature enhances the precision of the cuts and simplifies the splicing process, making the tool user-friendly and efficient.

Magnetized Module Placement Seat

The GSMTL120 Splice Scissors are equipped with a magnetized module placement seat, allowing the tool to be fixed on machines or nearby devices. This feature provides added convenience and accessibility, ensuring that the scissors are always within reach when needed.

Part No.	Dimension	QTY(PCS)
MTL120	Scissors 190 x 50 x 35mm 0.08kg	1
	Module(8mm-24mm) 22 x 14 x 12.5mm	1
	Module(32mm) 22 x 33 x 12.5mm	3
	Module(44mm) 22 x 45 x 12.5mm	3
	Module placement seat 48 x 160 x 8mm	1

Multi SMT Splicing Cutting Tools 8/12/16/24/32/44mm GSMTL120 | GSSMT, SMT splice tape, SMT splicing machine, SMT splice connectors, SMT splicing equipment, SMT tape splicing tools, SMT splice tool kit, SMT splicing process, SMT splice tool manufacturers, SMT tape splicing technique, SMT splice repair tools, SMT splicing solutions, Automatic SMT splice tools, Manual SMT splice tools, SMT splice tool application, SMT splice tape application, SMT tape jointing tools, High-speed SMT splicing tools, SMT splice tool comparison, SMT splice tape handling, Best SMT splice tools
