Basic Information

- Place of Origin: China
- Brand Name: HITACHI
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 150*60*60mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

Product Specification

- Brand Name: HITACHI
- Size: 127*45*44mm
- Condition: New Compatible
- Lead Time: 1-7 Days
- Highlight: High Precision PCB Support Pin, PCB Support Pin 44MM

Product Overview

The GXH G5S PCB Support PIN is a high-precision component designed to support PCBs during the assembly process. With a length of 44mm, it provides optimal stability and alignment for PCBs, ensuring they remain flat and securely positioned throughout the SMT process.

This support pin is widely used in pick-and-place machines and reflow soldering systems, playing a critical role in ensuring accurate component placement and minimizing movement or warping of the PCB.

Key Features

- Durable Construction** - Made from high-quality materials to withstand demanding manufacturing conditions with a robust design for long lifespan
- Precision Design** - 44mm length optimized for various PCB thicknesses with precise construction for snug fit and prevention of lateral movement
- Easy Installation** - Designed for quick setup and replacement to minimize production downtime
- GXH G5S Compatibility** - Specifically engineered for seamless integration with GXH G5S systems
- Anti-Slip Surface** - Textured surface prevents PCB slippage during assembly
