

White SMT Solder Paste Blade Plastic Ink Knife Solder Paste Mixing Knife

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: GS
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 180*80*50mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

Product Specification

- Brand Name: GS
- Condition: New Compatible
- Lead Time: 1-7 Days
- MOQ: 1 PCS
- Highlight: **SMT Solder Paste Blade,
White Solder Paste Blade,
Plastic Solder Paste Mixing Knife**

Product Description

一, Features of a High-Quality SMT Solder Paste Spatula

To meet the demands of modern electronics manufacturing, an ideal solder paste spatula should possess the following features:

1. Material Durability

Spatulas are typically made from stainless steel or high-grade plastic to withstand frequent use without bending or breaking.

2. Flexible Design

The flexibility of the spatula ensures even spreading of solder paste over stencils, reducing uneven application or gaps.

3. Ergonomic Handle

A well-designed handle provides a comfortable grip, minimizing operator fatigue during prolonged use.

4. Non-Stick Surface

The spatula's surface is often coated to prevent solder paste from sticking, ensuring easy cleaning and efficient use.

5. Variety of Sizes

Different PCB sizes and stencil dimensions require spatulas of varying widths and lengths, which are readily available to cater to diverse manufacturing needs.

二, Types of SMT Solder Paste Spatulas

1. Stainless Steel Spatulas

- Durable and long-lasting.
- Ideal for high-precision applications.
- Suitable for environments where chemical resistance is necessary.

2. Plastic Spatulas

- Lightweight and cost-effective.
- Flexible and suitable for delicate tasks.
- Commonly used in small-scale or manual operations.

3. Silicone Spatulas

- High flexibility and non-stick properties.
- Easy to clean and resistant to wear.
- Suitable for repeated use in large-scale production.
