

## JYC-350CLA PCB Surface Cleaning Machine with 600\*800\*1500mm Size for 50\*50-550\*350mm PCB Boards

Our Product Introduction

for more products please visit us on [smtmachine-spareparts.com](http://smtmachine-spareparts.com)

### Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: JYC-350CLA
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 700\*900\*1600mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

### Product Specification

- Model: JYC-350CLA
- Overall Size: 600\*800\*1500mm
- Suitable For PCB Board Size: 50\*50-550\*350mm (size Is Not Limited, Other Sizes According To Customer Requirements)
- Condition: Original New
- Highlight: **pcb smt pick and place machines, pcb smt pick and place equipment**

## Product Description

### PCB Surface Cleaning Machine JYC-350CLA

#### Product Description

This industrial-grade PCB Surface Cleaning Machine is designed for SMT production lines to ensure optimal PCB surface preparation before solder paste printing or dispensing.

#### Applications

Positioned between the loading machine and printing press in SMT production lines, this equipment performs critical cleaning functions:

- Removes static electricity from PCB boards
- Cleans surface contaminants including chips, dust, hair, and glass fibers
- Reduces defect rates for air welding and virtual welding post-reflow
- Improves overall product quality and reliability

#### Working Principle

The machine operates through an efficient mechanical cleaning process:

- Substrate passes through the machine track
- Adhesive roller contacts and rolls across PCB surface
- Roller's stickiness removes foreign objects including:
  - Dust and particulate matter
  - Board scraps and debris
  - Green oil residue
  - Hair and fibers
- Secondary roller system captures contaminants from primary roller
