Multi-functional Shielding Cover Attachment Machine with PCB Size Min.50mm x 50mm Max.400mm x450mm and Placing Speed 0.8-1.5sec/pcs ±0.05mm Accuracy

Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: JYCT-4000
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 1100*1400*1600mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

Product Specification

- Equipment Model: JYCT-4000
- Equipment Size: 1000(L)*1300(W)*1500(H)mm
- PCB Size: Min.50mm X 50mm Max.400 Mm X450 Mm
- PCB Transmission: L→R,L→L,R→L,R→R
- Label Size: Min.3*3mm Max.30*50mm
- Placing Speed: 0.8-1.5sec/pcs
- Placing Accuracy: ±0.05mm
- Label Stripping Method: Intelligent Feeder Divider
- Material Rack Placement: 4PCS
- Label Output Specification: 1-15PCS/row
- Width Adjustment: Adjustable Track Rear Movement
- Equipment Interface: SEMI Input/output 4-core International Standard Interface
- Highlight: **Multi Functional Shielding Cover Attachment Machine**
, **Auxiliary Shielding Cover Attachment Machine**

Multi Functional Auxiliary Material Shielding Cover Attachment Machine JYCT-4000

Product Overview

The JYCT-4000 is a multifunctional auxiliary material shielding cover installation machine featuring a Windows-based operating system with intuitive self-developed software. Its gantry-structured X and Y axes provide enhanced expandability, while the marble-constructed workbench and gantry ensure superior accuracy and stability. The machine offers versatile feeding methods (push forward/pull back) to accommodate various materials, with imported components in all main moving parts for reliable performance.

Primary Applications

Designed for SMT production lines, this machine handles PCB (printed circuit board) applications including:

- QR code labels
- Adhesive paper
- Pot pieces
- Thermal silicone
- Shielding covers

Application Scope

PCB Board: Two-dimensional codes, adhesive paper, pot pieces, thermal silicone, shielding covers

FPC Adhesive: Pressure sensitive adhesive, PI, conductive adhesive, foam, QR codes, pot pieces, double-sided adhesive

Display Modules: Heat dissipation graphite sheets, conductive adhesive, QR codes, double-sided adhesive

Camera Modules: Foam, conductive adhesive, high-temperature adhesive, double-sided adhesive, QR codes

Fingerprint Modules: Foam, conductive adhesive, high temperature adhesive, PI, double-sided adhesive

TWS Bluetooth Modules: Myra, QR codes, air filters

Wireless Charging Modules: Double-sided tape, high-temperature glue, QR codes

Industry Applications

Mobile phone manufacturing, TWS products, TP industry, laptop production, wireless charging systems, FPC production

Multi-functional attachment machine   Auxiliary material handling equipment   Shielding cover application machine
Automated attachment systems   EMI shielding cover machine   Integrated attachment solutions   Multi-purpose assembly machine
Shielding cover installation equipment   Auxiliary machinery for manufacturing   Flexible cover attachment systems
