

SMT Siemens DX4 Pick and Place Machine 3.45kw 01005-6 mm x6 mm

Our Product Introduction

for more products please visit us on smtmachine-spareparts.com

Basic Information

- Place of Origin: Germany
- Brand Name: ASM/SIEMENS
- Model Number: DX4
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 2100*3000*1800mm
- Delivery Time: 5-15 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

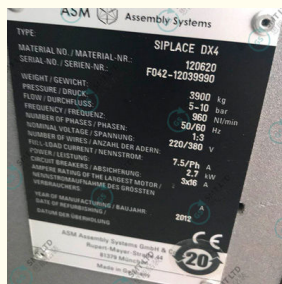

Product Specification

- Model: SIPLACE DX4
- IPC Speed: 102,000 Comp./h
- Component Range: 01005-6 Mm X6 Mm
- Mounting Accuracy: +41 Um,±0.5%(3sigma),±55 Um,± 0.7% (4sigma)
- Standing Position: 148
- PCB Range: 550 Mm X 560 Mm
- PCB Thickness: 0.3 -4.5 Mm
- Patch Head: SIPLACE SpeedStar Component Camera Type 23 (C&P20)
- Track Mode: Automatic Widening Mulberry Double Track (can Be Used As Single Track)
- Rated Power: 3.45kw
- Highest Component: 4mm
- Equipment Size(W*D*H): 1900x2735x1630mm
- Equipment Weight: 3460kg

Product Description

Description

Introducing the Siemens Dx4, a high-speed chip mounting machine engineered for exceptional precision in SMT placement. ●This advanced system is the cornerstone of PCB assembly, offering robust capabilities in surface mounting technology. ●Designed to address the complexities of modern PCB component placement, the Dx4 seamlessly combines speed with accuracy, making it an ideal solution for LED SMT production and a wide range of SMT applications. ●With its user-friendly interface, the Siemens Dx4 enhances your surface mount equipment lineup, empowering your production with efficiency and reliability.
