

Manual Operation SMT Feeder with 14 PIN Standard Interface and DC 24V Voltage for Domestic Labeling Machines

Our Product Introduction

for more products please visit us on smtmachine-spareparts.com

Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: GSGCTZFD
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 570*46*125
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

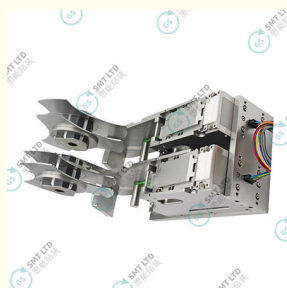

Product Specification

- Material: Hard Aluminium+ Finishing
- Fixed Mode: Dual-Pins And Rail Positioning, Lock Holder
- PC Link: 14 PIN Standard Interface AWG24 Standard Wire
- Voltage: DC 24V
- Average Curr: 1 A
- Peak Current: 2 A
- Vacuum Adsorption: 0.4~0.6MPa Selectable
- Software: Independent Development
- Hardware: Customized Control And Drive Integration Based On ARM
- Controller: Touchpad And Parameters Setting
- Working Mode: Hand/Auto/on-line Mode
- Driving Motor: Stepping Motor
- Label Positioning: Optical Fiber Positioning ,Pulse Compensation

Product Description

Manual Operation SMT Feeder - Special Feeder for Domestic Labeling Machines

Product Description

Specialized feeder designed specifically for domestic labeling machines, offering compatibility and customization options.

Functional Features

Designed for domestic labeling machines, compatible with most models and available in multiple specifications with customization options

Equipped with proprietary optical sensor technology for sensitive, precise operation with up to 20 sense heads

Flexible operation modes: can run automatically or communicate with uplink systems in online mode

SMT Feeder Special feeder for domestic labeling machines | GSSMT, Domestic labeling machine feeder, Automatic label feeder systems, Special feeders for labeling machines, Labeling machine accessories, High-speed label feeders, Compact labeling machine feeder, Custom label feeder solutions, Semi-automatic labeling feeders, Label applicator feeder systems, Feeder for pouch labeling machines, Versatile label feeding systems, Label roll handling equipment, Precision label feeders, Friction feeder for labels, Labeling machine integration, Adjustable label feeders, Efficient label dispensing systems, Label feeder compatibility, Industrial labeling machine feeders, Feeder technology for labeling applications
