

Reflow Soldering Wave Soldering Thermometer Furnace Temperature Tracker Furnace Temperature Tester Bathrive Bride FBT60

Our Product Introduction

for more products please visit us on smtmachine-spareparts.com

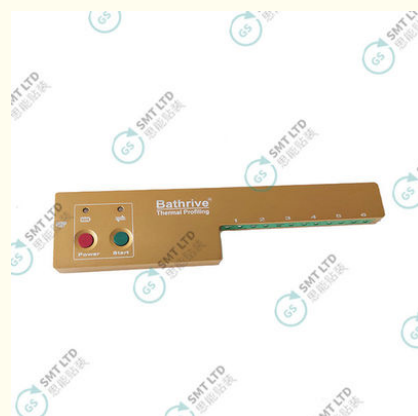

Basic Information

- Place of Origin: China
- Brand Name: Bathrive
- Model Number: FBT60 / FBT61
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 222*60*10mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

Product Specification

- Brand Name: Bathrive
- Product Name: Furnace Temperature Tester Bathrive Bride FBT60
- Model Number 1: FBT60
- Model Number 2: FBT61
- Condition: Original New/Used Original
- Lead Time: 1-7 Days
- Highlight: **Furnace Temperature Tester, Bathrive Bride FBT60, Furnace Temperature Tracker**

Product Description

Product characteristics

1. The use of space-grade ultra-strong computing power 32-bit MCU, so that the instrument only 1000Ma battery can provide more than 30 hours of ultra-long battery life, the number of data storage up to 255 groups (support power down storage)
2. Modular software design, independent process library, product library, furnace library, greatly convenient for users to systematically manage the temperature curve file, one-click automatic curve optimization function, millions of temperature curve data models, three optimization modes, can quickly recommend the best furnace setting parameters for users, greatly reducing the time to adjust the oven.

(Technical specifications)

Instrument model: Bathrive_FBT60

Number of channels: 6

Instrument size: 222*60*10(mm)

Measurement precision: ± 0.5

Temperature resolution: 0.1

Sampling speed: 100 times/second ~1 hour/time

Storage space: 128Mb

Number of storage groups: 255

Cell capacity: 1000MA

Instrument starting mode: explosion-proof high temperature battery temperature, time, button temperature

Instrument stop mode: Time, button, communication

Instrument operating temperature: $-40 \sim 85^{\circ}\text{C}$

Instrument temperature measuring range: $-200 \sim 1$ gauge

Thermocouple type: K type

Communication port: USB

Software language: Chinese simplified, Chinese Traditional, English

Software platform: WIN-XP, 7, 10, 11 (32 or 64 bit system)

Typical application areas of products

Electronic manufacturing, semiconductor, photovoltaic, spraying, brazing, new energy, metallurgy, glue curing (vertical furnace), food baking, etc
