

## Panasonic JV131 Pick and Place Machine 2250kg 10.0mm Insert Spacing

Our Product Introduction

for more products please visit us on [smtmachine-spareparts.com](http://smtmachine-spareparts.com)

### Basic Information

- Place of Origin: Japan
- Brand Name: Panasonic
- Model Number: JV131
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 3300\*2500\*1700mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

### Product Specification

- Brand: Panasonic
- Model: JV131
- Processing Customization: Yes
- Object Element: Jumper
- Plugin Speed: 0.08sec/ Dot
- Insertion Direction: 4
- Insert Spacing: 2.5 Mm, 5.0 Mm And 7.5 Mm, 10.0 Mm
- Substrate Size: L50mmxW50mm-L508mmxW381mm
- Air Pressure: 0.5MPa,80L/minA.N.R.MPa
- Air Flow Rate: 0.5 MPa, 80 L/minA. N.R.L/min
- Power Requirements: AC200V,3.5kVAV
- Power: AC200V,3.5kVAKW
- Dimensions: W3200mmxD2417mmxH1620mm\*3mm
- Weight: 2250kg
- Highlight: **2250kg Pick and Place Machine,**

## Product Description

### 10.0 mm Insert Spacing 2250kg Panasonic JV131 Pick and Place Machine for Precise Component Placement

The Panasonic JV131 is an advanced placement machine in the Panasonic range, designed to provide high-speed, high-accuracy placement for surface-mount technology (SMT) components.

#### Key Features

- **High-Speed Placement:** Capable of placing up to 60,000 components per hour, ideal for high-volume production environments.
- **Flexible Component Handling:** Accommodates components from 0201 size to larger components with versatile placement capabilities.
- **Advanced Vision System:** High-precision vision system with automatic fiducial recognition and offset correction for complex boards.
- **Multiple Heads:** Equipped with multiple heads to handle diverse components simultaneously, optimizing productivity.
- **High Placement Accuracy:**  $\pm 0.03\text{mm}$  placement accuracy ensures precise board assembly.
- **User-Friendly Interface:** Intuitive control system reduces setup time and improves operational efficiency.
- **Flexible Feeder System:** Supports various feeder types with automatic changeover options to minimize downtime.
- **Compact Footprint:** Space-efficient design suitable for production lines with limited floor space.
- **Energy Efficient:** Designed to reduce operational costs through energy-efficient performance.
